

TRANSLATION OF WORD FROM PREM MAYA

Today I am very happy that I got to gain some knowledge about health. Due to all your kind assistance and love, now I have got a light into my life. I cannot imagine my condition how my life would have been through without your assistance. My parents gave life to me but they couldn't provide me care and education. When I was 9 yrs old, I got the chance to start my school. Since I continued my study, till grade 8, I stayed at my village Thakani-5 then I studied grade 9 and 10 staying far in a rented room. In 2 years time I passed my SLC (School Leaving Certificate) too. With additional effort I was able to succeed in studies in 2 years. I had never imagined that I can do higher education. After SLC, I went back to my village. After few months I came to Kathmandu with my friend. One of my teacher (Chaudhary Sir) in village helped me to get connect with Tashi Sir, and then I came to join ANM study. For this course, Tashi Sir has helped me a lot and would like to say heartly thanks to him. I will never forget to you all, who have guided my life towards light with better future, and spread the service that you pour on me. I have got a new world so THANK YOU so much CNMS family, Tashi Sir (HEAL Nepal) and Yuma Madam (Phect Nepal). I used to wonder about the people who were loving and helping me (people from CNMS), how would they be if I could meet them in person. So today I got to meet you (Rob Sir and Judy Miss as representative from CNMS) so I am very happy today. Nearly I am finishing 18 month course and same time I got the chance to meet you all. I am extremely happy for this. My Heartfelt thanks to you all with Best Wishes!
